WOMAN TELLS STORY OF INTENSE SUFFERING

At the age of about 40 years, I was attacked with hemorrhage of the kidneys or bladder which continued for several years without a check. I finally took advantage of your generous offer and procured a sample bottle of Swamp-Root. Believing it helped me, I purchased a fifty-cent bottle, which convinced me that it was helping me. Three other bottles cured me. In two or three years, over-work brought my ailment back, but one bottle stopped it.

I feel as if I owe my life to you for the great blessing Dr. Kilmer's Swamp-Root has been to me. I recommend it to all human beings suffering as I was. You have my permission to publish this letter and if any person doubts it, if they will write me, enclosing stamp, I will give full particulars.

Yours very truly,

MRS. T. B. PHILIPS,

Rocky, Ark.

Personally appeared before me this first day of August, 1909, Mrs. T. B. Philips, who subscribed the above statement and made oath that the same is true in substance and in fact.

L. P. Purvis, J. P.

Prove What Swamp-Root Will Do For You. Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When you are sure and mention this.

Died Suddenly

Mrs. E. W. Bonham, aged 67 years, wife of Engineer Bonham one of the oldest engineers on this division, died suddenly at her home in Nashville Wednesday afternoon at 3:30 o'clock. She was a member of the Presbyterian church and was a consistent christian woman, a good wife and devoted mother. Besides her husband she leaves three sons and a daughter, all grown and married. The many friends of the family extend heartfelt sympathy in hour of trouble.

It is reliably reported that there will be considerable changes for the better made at the Guthrie passenger station and that two train sheds will be built one for the Henderson division and one for the Memphis line, also concrete platforms will be laid along both tracks and between the Memphis line and the hotel. There are a large number of passengers handled at Guthrie daily as there are 36 passenger trains in and out of that place every 24 hours and these improvements mean a great deal in the way of handling passengers, baggage and express.

Church Notes

The Revival.

The revival at the Christian church seems to go forward with increasing interest and power. The audience continues to fill the house at every service, the music keeps on the high plane it has been on from the first of the meeting and the sermons are still of that short striking kind that reach and help young men. There have been confessions at every service this week. The number added to the church this week up to Thursday night, is 31. The minister announced last that on Sunday morning he will preach on the "Second Coming of Christ" and in the evening on "The Judgment Day." These sermons will probably attract great attention, for they are on subjects that interest everyone. Baptismal services are being held almost daily at the church.

"Mothers Day" will be observed at the Sunday school of the M. E. Church, South, next Sunday. The Baraca Class will have charge of the white carnations and they will be worn by the Baraca members in honor of their mothers. The sermon at 11 a. m., by the pastor, will be in keeping with the day. The sermon in the evening will be, "The Cause of the Boldness of the Apostles." The mothers are invited to attend the Sunday school next Sunday. We are having new additions to the school every Sunday.
